PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with hands-on experience building web and mobile applications using MERN, Laravel, Flutter, and ASP.NET Core. Skilled in developing responsive user interfaces, REST APIs, authentication systems, and database-driven applications, with a strong foundation in problem solving and software development.

TECHNICAL SKILLS

Languages: JavaScript, Dart, PHP, C#, C++, Python
Frontend & Mobile: React, Flutter, Tailwind CSS,
Backend: Node.js, Express.js, Laravel, ASP.NET Core MVC, REST APIs
Databases: MongoDB, MySQL, Firebase, SQL Server
Developer Tools: Git, GitHub, Postman, Figma

EDUCATION

Ahsanullah University of Science and Technology — Dhaka, Bangladesh
B.Sc. in Computer Science and Engineering (CGPA: 3.40/4.00) — *2022 – Present*

Ispahani Public School & College — Chattogram, Bangladesh
Higher Secondary Certificate (GPA: 5.00/5.00) — *2020*

Nasirabad Government High School — Chattogram, Bangladesh
Secondary School Certificate (GPA: 5.00/5.00) — *2018*

PROJECTS

Innovest – Entrepreneur-Investor Platform
Technologies: *Laravel, React, MySQL*
- Developed a full-stack platform that enables entrepreneurs to present business ideas and connect with potential investors.
- Implemented user authentication, project fundraising workflows, and communication features between entrepreneurs and investors.

Shanjeeban – Blood Donation Management App
Technologies: *Flutter, Firebase*
- Developed a mobile application for managing and coordinating blood donation activities.
- Integrated a points and rewards system designed to increase donor engagement and encourage continued participation.

Beacon – City Complaint Management System
Technologies: *ASP.NET Core MVC, SQL Server*
- Built a centralized complaint management system that allows citizens to submit issues and monitor their resolution status.
- Implemented two-way communication between citizens and authorities, including complaint updates and information on development initiatives.

Vien – E-Commerce Application
Technologies: *MongoDB, Express.js, React, Node.js*
- Developed a full-stack e-commerce application using the MERN stack, applying core concepts of frontend development, backend APIs, and database integration.

AWARDS & ACHIEVEMENTS

- **Champion**, Code Alchemy Refactoring Contest, AUST CSE Carnival 5.0 — Fall 2023
- **Runner-Up**, Quiz Contest, AUST CSE Carnival 3.0 & 4.0 — Spring 2023
- **Runner-Up**, Intra Department Football Tournament — Fall 2023
- **Runner-Up**, Chess Contest, AUST CSE Carnival 2.0 — 2023 (Fall 2022 Semester)
- **Competitive Programming:** Solved 300+ algorithmic problems across LeetCode and Codeforces.

RESEARCH

- **Power Grid Transmission Optimization** – Reinforcement Learning
- **Bangladeshi Banknote Fitness Classification** – Deep Learning
- **UEFA Champions League Match Outcome Prediction** – Statistical Modeling
